

The **Colorectal Carcinoma (CRC)** programme focuses on the testing of *KRAS/NRAS/BRAF* mutations and runs under the scientific supervision of the **European Society of Pathology** (www.esp-pathology.org).

Key information concerning the CRC programme is available at www.sekk.cz/CRC

How to order

The web application Cibule (www.eqa.cz/cibule) is used to manage the registration and orders of the participants. Please follow these 2 steps:

Step 1: registration

- Skip this step and go to the **Step 2** if your laboratory is already registered in the app Cibule.
- To register (obtain user account) in the app Cibule please select *New participant* in the menu and complete the request for the registration.
- We'll send you access data (credentials) after processing your request.
- After having access data (this will allow you to login) go to the **Step 2**.

Step 2: ordering

- To make an order, please login to the app Cibule. Always read the instructions on the screen when working with the app Cibule.
- After login go to the menu *Orders – Services* (if asked, choose the year 2022) and click the button *New request*. The wizard will be started that will guide you through the process of ordering in 5 steps. In step 3 (most important) use *Change* button near the CRC programme (in the Pathology section) to order both CRC rounds (order one set of samples for each round).
- We'll process your request and we'll keep you informed.
- Please be advised that the Cibule is universal application covering completely the EQA Plan and thus you will see all available EQA programmes, not only CRC. Of course you are free to order also other EQA programmes.

Application deadline

Please complete 2 steps mentioned above before **February 1st, 2022**.

Pricing

The annual fee (final price of 2 rounds inclusive the transport of the samples to the participant) is **454 EUR** (price without VAT).

Contacts

Do not hesitate to ask if having any questions concerning the **EQA Plan 2022** or the procedure of the registration and ordering. You can use any of the following e-mails:

info@sekk.cz
sekk@sekk.cz

Additional information

Complete description of all EQA programmes and related services you can find in the document **EQA Plan 2022**: http://www.sekk.cz/eqa/2022_plan_EHK_1.pdf

The description of the **Colorectal Carcinoma (CRC)** programme is located at the **page 31**.
